

TRUCK DELIVERY INFORMATION

BURY HILL
LANDSCAPE SUPPLIES

IMPORTANT INFORMATION ON TRUCK CAPACITIES AND SIZES

Our aim is to provide our customers with an unrivalled delivery service, regardless of the logistical challenges, and our expanding fleet of specialist FORS Silver delivery vehicles is key to achieving this.

Whether your needs are for bulk bags, palletted poly bags, loose or bulk deliveries, our bespoke fleet of purpose built delivery vehicles allow us to deliver all orders quickly and efficiently in line with customers delivery instructions whilst also fully meeting their site and access logistics.

Please see below details of our fleet of FORS Silver specialist delivery vehicles together with their carrying capacities, diamensions and where applicable crane/hiab reach, to enable you to choose the truck best suited to your delivery requirements.

FORS SILVER CERTIFIED

The Fleet Operator Recognition Scheme (FORS) is a voluntary accreditation scheme for fleet operators which aims to raise the level of quality within fleet operations, and to demonstrate which operators are achieving exemplary levels of best practice in safety, efficiency, and environmental protection.

Being a FORS Silver member demonstrates to our customers our commitment to exceeding the industry standard when it comes to our Delivery Methods. Bury Hill Landscape Supplies achieved the FORS Silver standard back in 2018 and take great pride in being part of the scheme that creates safer and more efficient hauliers. Our AIM is to upgrade to FORS Gold by 2022.
