

# SOIL CONDITIONER

**BURY HILL**  
LANDSCAPE SUPPLIES

100% Peat Free, our finely graded Soil Conditioner is one of our most popular compost products. Fully certified to BSI PAS100:2018 (the British Standard for composted materials), our Soil Conditioner is a friable, dark, rich, fine compost packed full of natural nutrients and minerals, which will slowly release into the soil over time, improving the natural balance, properties and performance of the soil.

## PRODUCT BENEFITS

- Responsibly sourced & environmentally friendly
- 100% Peat free
- Very clean consistent product
- Attractive dark rich colour
- Improves soil structure and fertility
- Encourages strong plant growth
- Sterilised weed suppressant
- Free from pathogens, pests and weed seed
- Superb water retention
- Free flowing and easy to use
- A good source of trace elements
- A very economical way to add organic matter to soils

## NUTRIENTS\*:

	Total mg/litre	Water Soluble mg/litre
Nitrogen (N)	15231	79
Phosphorous (P)	788	43
Potassium (K)	3359	1556
Calcium (Ca)	9418	124
Magnesium (Mg)	1062	34
Sulphur (S)	730	98
Iron (Fe)	4106	33

## TYPICAL PROPERTIES\*:

Bulk Density	0.525 g/litre
pH	8.8
Electrical Conductivity	1365 us/cm
